

## Hello ...

Wow, have you noticed how dark it is at 6am now?? It's definitely time to create good training habits before it's dark AND cold!

Speaking of dark... we have new lights arriving every week. We've been amazed at the quality of the new lights coming in this year, especially at the huge range of rear flashers coming in to light up our butts!!

Make sure you get in & grab a bargain on the last of the summer jersey's this month, we're clearing way for the 2010 winter clothing that will be arriving soon.

In the meantime we have stock of arm & leg warmers which are already becoming an essential with the mornings cooling down now.

Lastly, our new look website will be up & running soon so stop by for a quick peak when you get the chance.

Have a great month,  
Marika & Stu
